THE REGULAR MEETING OF THE BOARD OF DIRECTORS
OF STOCKTON EAST WATER DISTRICT WAS HELD AT THE DISTRICT OFFICE
6767 EAST MAIN STREET, STOCKTON, CA
ON TUESDAY, APRIL 30, 2024 AT 12:30 P.M.

A. PLEDGE OF ALLEGIANCE AND ROLL CALL

President Atkins called the regular meeting to order at 12:30 p.m., and Director Atkins led the Pledge of Allegiance.

Present at roll call at the District were Directors Atkins, Cortopassi, McGurk, Nakaue, Panizza, Sanguinetti and Watkins. Also present were Manager Hopkins, Assistant Manager Vega, Finance Director Ram, District Engineer Evensen, Maintenance Manager Higares, Administrative Assistant Rodriguez, Legal Counsel Zolezzi and Consultant Barkett

B. CONSENT CALENDAR (None)

C. PUBLIC COMMENT (None)

Kevin Kauffman, former General Manager of the District, introduced a product from the Water Group LLC, called the Parjana© EGRP – a plastic tube that goes into the ground and increases the ability of the natural soils to infiltrate water. Mr. Kauffman reported they are coming out with a new product called EGRP 2 which is currently being tested in Red Rock, Arizona by Arizona State University.

D. SCHEDULED PRESENTATIONS AND AGENDA ITEMS

1. Minutes 04/23/24 Regular Meeting

A motion was moved and seconded to approve the April 23, 2024 Minutes, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGurk, Nakaue, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: None

2. Warrants – California Public Employees’ Retirement System

A motion was moved and seconded to approve the April 30, 2024 Warrants, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGurk, Nakaue, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: None

3. Stockton East Water District – Consideration of Approving a Professional Service Agreement with JWT Associates, LLP, For 2024-2026 Audit Memo

Manager Hopkins presented the Board with the Consideration of Approving a Professional Service Agreement with JWT Associates, LLP, For 2024-2026 Audit Memo. Manager Hopkins reported the District is required to change the principal auditor of the firm every three years. Manager Hopkins reported the current auditor, Jeremy Ware with JWT Associates, has reached the end of his three-year term and staff has reached out to for a renewed proposal from JWT Associates for a new principal to perform the District’s next three annual audits. Finance Director Ram reported the current lead auditor for JWT Associates, Jeremy Ware, has served in this role for six years. As per

Assembly Bill 1345, Section 12410.(b), which mandates changing the lead auditor every six years, we are required to make this change. Given the complexity of the District's budgeting system, staff opted not to solicit bids for a new auditor. Instead, staff engaged in discussions with Nathan Doty, a partner at JWT Associates, who has provided a proposal to serve as the new lead auditor. Mr. Doty brings extensive experience working with healthcare organizations, non-profits, and has conducted audits for the Del Puerto Water District in Patterson, CA.

To ensure a seamless transition, Jeremy Ware will be working alongside Mr. Doty in a supportive role during this process. This arrangement combines the benefits of a fresh perspective from Mr. Doty's expertise while leveraging Mr. Ware's knowledge of our organization.

From 2023 audit expense of \$38,750, the 2024 proposed cost is \$40,250. This is a 3.87% increase. This is followed by subsequent increases of 6.21% and 5.26%. The last single audit cost the District \$18,730 and the current proposed cost for single audit is \$7,000 for each of the three years. Staff respectfully recommends the Board authorize the General Manager to approve a Professional Services Agreement with JWT Associates, LLP, in the amount of \$142,000 with a 10% contingency of \$14,200, for a total amount of \$156,200, and make all other necessary approvals.

Director Cortopassi inquired what a single audit was. Finance Director Ram replied when the District receives federal grants totaling over \$750K in a single year, the auditors need to perform a separate audit from the regular audit. Finance Director Ram reported the District will not have a single audit for fiscal year 2023-2024.

Director McGurk inquired if all the grants require an audit of its own or if all grants are combined together and receive one single audit. Finance Director Ram replied in one fiscal year for federal grants if the District goes over \$750K a single audit will be required whether it be a combination of grants or a single grant exceeding the amount of \$750K.

A motion was moved and seconded to authorize the General Manager to approve a Professional Services Agreement with JWT Associates, LLP, in the amount of \$142,000 with a 10% contingency of \$14,200, for a total amount of \$156,200, and make all other necessary approvals, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGurk, Nakaue, Panizza, Sanguinetti, Watkins

Nayes: None

Abstain: None

Absent: None

4. Stockton East Water District – Authorization of Contract Award for Extraction Well #2, Piping Memo

Manager Hopkins presented the Board with the Authorization of Contract Award for Extraction Well #2, Piping Memo. Manager Hopkins reported the District held a bid opening for Extraction Well #2 piping. Manager Hopkins reported staff has reviewed the bids and are ready to make a recommendation to the Board. Assistant Manager Vega reported staff solicited bids through Planet Bids to furnish and install approximately 25 linear feet of 12-inch ductile iron pipe (DIP) or steel pipe, 160 linear feet of 30-inch reinforced concrete pipe (RCP), and one (1) 6-foot diameter precast manhole. Assistant Manager Vega also reported the lowest bid came from Tom Mayo Construction at \$143,800. On April 23, 2024, the Board of Directors' (Board) approved Fiscal Year 2024-2025 Budget re-allocation to support completion of Fiscal Year 2023-2024 Extraction Well No. 2 Project, in the amount of \$175,000. The lowest bid plus contingency falls well within the available budget amount. Staff respectfully recommends the Board authorize the General Manager to award the contract for the Extraction Well #2 piping work to Tom Mayo Construction, the lowest responsive

and responsible bidder in the amount of \$143,800, with a 10% contingency of \$14,380, for a total amount of \$158,180, and make all other necessary approvals.

Director Atkins inquired why PVC pipe is not being used instead of the steel pipe. District Engineer Evensen replied steel or ductile iron pipe is used when placing a pipe above ground since the PVC pipe could encounter issues with sunlight exposure or could be more easily damaged.

Director Cortopassi inquired if the ASR well and extraction well #2 are two different wells. District Engineer Evensen replied yes, they are two separate wells.

Director Sanguinetti inquired why staff is suggesting 30-inch RCP pipe. District Engineer Evensen replied it is going from pressure to gravity flow, therefore, a larger diameter pipe is required for gravity flow and RCP pipe is the best alternative for the application. Discussion followed.

A motion was moved and seconded to authorize the General Manager to award the contract for the Extraction Well #2 piping work to Tom Mayo Construction, the lowest responsive and responsible bidder in the amount of \$143,800, with a 10% contingency of \$14,380, for a total amount of \$158,180, and make all other necessary approvals, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGurk, Nakaue, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: None

5. Stockton East Water District – Authorize Approval of WTP Disinfection System Project Notice of Completion Memo

Manager Hopkins presented the Board with Approval of WTP Disinfection System Project Notice of Completion Memo. Manager Hopkins reported the WTP Disinfection System facility has been completed and staff has addressed all the punch list items. Manager Hopkins reported the District has outstanding work from Carollo Engineering in which the Board approved a budget reallocation to cover the additional expenses for record drawings and an operations and maintenance manual. The District awarded TNT Industrial Inc. the construction contract in the amount of \$5,426,903.91, with a 10% contingency of \$542,690, for a total amount of \$5,969,593.91. The construction completion amount was \$5,890,868.04. Staff respectfully recommends the Board authorize the General Manager to proceed with the signing of the WTP Disinfection Systems Project Notice of Completion.

Director Cortopassi inquired if Carollo Engineers will complete the certification. District Engineer Evensen replied he personally certified the WTP Disinfection System design and construction for the operation of the WTP under permit.

A motion was moved and seconded to authorize the General Manager to proceed with the signing of the WTP Disinfection Systems Project Notice of Completion, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGurk, Nakaue, Panizza, Sanguinetti, Watkins

Nays: None

Abstain: None

Absent: None

6. Stockton East Water District – Consideration of Approving MICUP Eblast and Meeting Memo

Manager Hopkins presented the District with Consideration of Approving MICUP Eblast and Meeting Memo. District Engineer Evensen reported MICUP will be having a meeting in person and via teleconference. District Engineer Evensen also reported MICUP is a regional effort to prioritize basin-wide water reliability through local and multi-jurisdictional projects to secure San Joaquin County Mokelumne River water rights. MICUP seeks a State Water Resources Control Board (SWRCB) water rights permit to utilize excess Mokelumne River water, which may be available during wet years, to divert and store as groundwater. Staff requests the Board of Directors consider and provide direction related to the circulation of the Eblast, listing of the event on the District's website.

Director Nakaue inquired why the District is participating in an event in which the District does not benefit from. Legal Counsel Zolezzi replied if the San Joaquin County obtains the permit, then the District may be able to use Mokelumne River delivered from the East Bay Municipal Utility District's aqueduct pipelines.

The Board had consensus to circulate of the Eblast and list the event on the District's website,

E. COMMITTEE REPORTS

1. San Joaquin Farm Bureau Monthly Water Committee Meeting, 04/23/24

Manager Hopkins attended the San Joaquin Farm Bureau Monthly Water Committee Meeting. Manager Hopkins reported North San Joaquin's conical fish screens installed in the Mokelumne River for screening their diverted water of fish is a maintenance ordeal. North San Joaquin is looking into installing dams in Bear Creek with hopes of increasing surface water use in the southern portion of their District. Manager Hopkins also reported Woodbridge Irrigation District (WID), Oakdale Irrigation District (OID) and South San Joaquin Irrigation District (SSJID) have been delivering water since last month. San Joaquin County and Delta Water Quality Coalition reported their annual budget is up to \$3M a year in which most of the money is going to the state for managing the data collected from the growers. Alex Chetley from San Joaquin County introduced the new Water Resources Manager Ashley Couch (he/him), who has thirty years of experience in the water management sector. Mr. Couch came from Arizona where he was a Public Works Director and a certified Floodplain Manager for several entities and is currently working on obtaining his engineering license for California.

2. Stockton East Water District - Agriculture Operations Committee Meeting, 04/25/24

Director Cortopassi, Director Atkins, Director Watkins, Director Sanguinetti, Manager Hopkins, Assistant Manager Vega and District Engineer Evensen attended the meeting. Director Cortopassi reported the committee reviewed Rule 109 and recommended taking it to the Board on May 14th. Director Cortopassi reported GEI Consultants presented the Water Supply Master Plan and the committee is providing GEI with input to make necessary changes to perfect the Water Supply Master Plan.

Director McGurk inquired what started the problem with the riparian in Rule 109. Director Watkins replied the guidance in Rule 109 has not been followed and some parcels were receiving credits of different amounts than what the study stated.

Director Panizza inquired how many acre feet are involved. Director Watkins replied it was not viewed by acre feet. Staff reported it only made a difference of a couple thousand dollars a year to the District. Discussion followed.

3. Stockton East Water District - Municipal Operations Committee Meeting, 04/26/24
Director McGurk, Director Nakaue, Director Panizza, Director Atkins, Manager Hopkins, Assistant Manager Vega and District Engineer Evensen attended the Municipal Operations Committee Meeting. Director McGurk reported Stantec presented a comprehensive presentation to the committee about the Water Treatment Plant Master Plan. Director Nakaue reported the District will need to replace the transformers since they are about fifty years old and are beyond their useful life and it will take approximately 2-4 years in order for the District to get new transformers. Director Nakaue also reported District Engineer Evensen is looking into ordering the transformers now in order for the District to receive the transformers within the two-year time frame.

Director Panizza inquired if there is a time frame to acquire all the necessary components for the transformers. Director Atkins replied the committee is still unsure how much the transformers and all other necessary components will cost. Assistant Manager Vega reported the Water Treatment Plant Master Plan is looking at all the old infrastructure and Stantec will provide an improvement plan which will include critical items which need to be addressed. Discussion followed.

4. Stockton East Water District - Electrical Power Alternative Committee Meeting, 04/29/24
Director McGurk, Director Sanguinetti, Director Atkins, Manager Hopkins and Assistant Manager Vega attended the Electrical Power Alternative Committee Meeting. Director McGurk reported Assistant Manager Vega presented the committee with a presentation explaining how to develop averages for how much the District spends on electricity and at what level the treatment plant is operating. Director Atkins reported the committee discussed whether it be a better option to purchase the solar panels or have an agreement with one of the three companies the committee provided as an option. Assistant Manager Vega reported from 2022/2023 – 2023/2024 the usage charge increased by 10.8% and the demand charge increased by 17%. From 2019 to present day the maximum demand charge has doubled. Director Atkins reported it would cost the District \$24M to lease the solar panels, battery and maintenance with the company White Pine for 30 years. Manger Hopkins reported the direction of the committee was to have staff bring the White Pine ground mount Power Purchase Agreement (PPA) option to the Board for consideration.

F. REPORT OF GENERAL MANAGER

1. Water Supply Report as of 04/23/24
Manager Hopkins provided a handout of the Water Supply Report for information only that included storage, release, and production data collected from various sources as of midnight last night.

There is 302,814AF in storage at New Hogan Reservoir. Current releases are set at 115 cfs. There is 2,057,940 AF in storage at New Melones Reservoir. Current releases are set at 2,090 cfs. Current release at Goodwin Dam to Stanislaus River is set at 2,378 cfs and release to all water users is set at 3,202 cfs. The District Water Treatment Plant (WTP) is currently processing 40 mgd. North Stockton is currently utilizing 8 mgd. South Stockton is currently utilizing 4 mgd. Cal Water is currently utilizing 18 mgd. The City of Stockton WTP is currently processing 10 mgd.

2. Information Items:
 - a. Manager Hopkins noted items: F-2a, F-2b and F-2c.
3. Report on General Manager Activities
 - a. California Special Districts Association – Financial Management for Special Districts Workshop, 04/24/24
Manager Hopkins and Finance Director Ram attended the California Special Districts Association – Financial Management for Special Districts Workshop. Manager Hopkins

reported the District's Finance department is doing a great job with the District's internal controls. Manager Hopkins reported there were numerous items which were reviewed in the workshop the finance department is already doing. Manager Hopkins also reported best practices for financial reporting suggested more information should be brought to the Board on a regular basis. Finance Director Ram reported many agencies are seeking better software programs. Finance Director Ram also reported there is a software program many agencies are moving towards and is hopeful the District will soon migrate to such a well-known software.

Director McGurk inquired why the software is important. Finance Director Ram replied the finance department currently uses Blackbaud which is an old software and there are several steps staff must go through to know how much is expensed in every account. The new recommended software is more expensive but is more enhanced with everything shown in real time.

Director McGurk inquired if the software includes training. Finance Director Ram replied yes, the software comes with training. Discussion followed.

b. Stockton East Water District Activities Update

Manager Hopkins presented the Board with a picture of the Tully Dam installation and reported all the dam installations are complete and most of the system is charged. Potter Creek is yet to be filled up and is currently in progress. Manager Hopkins also reported the Potter Creek Pump Station 8,000 pump (8,000 gallon per minute capacity) was also installed.

Director Cortopassi inquired if the rental crane is shown in the picture and was the operator included with the crane. Manager Hopkins replied no, only the crane was rented.

Manager Hopkins reported a meeting was held last week with the Project Management Committee which oversees the five-year update for Groundwater Sustainability Plan. Manager Hopkins reported one item the Groundwater Authority will have to integrate into the five-year update is explicit demand reduction actions and triggers.

Manager Hopkins reported the District was hopeful there would be existing right-of-way to install the Calaveras Pipeline Project so the District could distribute New Hogan water south of the Calaveras River to several growers. Through the District's general counsel, a title investigator was hired to conduct thorough research and they were not able to find any recording of Linden Irrigation District right-of-way.

Manager Hopkins reported he had a phone call with the District's environmental consultants on the Bellota Weir Modifications Project. The consultants have been negotiating with U.S. Fish and Wildlife (USFW) to try and get the biological consultation concluded for the Section 404 permit from U.S. Army Corps of Engineers (USACE). Manager Hopkins reported the mitigation being requested by USFW is turning out to be costly and will require a three to one mitigation for every one acre of habitat the District impacts with the total of eight acres. Manager Hopkins also reported there is a local mitigation bank that is waiting for USFW approval to begin construction of their third phase of the mitigation bank and they have mitigation credits which will be available in approximately a year and a half. The approximate cost for eight acres of mitigation is \$1.2M. Manager Hopkins reported there is an alternative the District is currently looking into through San Joaquin Council of Governments which have the San Joaquin County

habitat conservation plan in which the District could participate in with a fee of \$160K for the eight acres, however, there are eight Elderberry bushes in which each limb will cost \$500.

Manager Hopkins reported the District had to shut down High Service Pump Station to install another Automatic Transfer Switch (ATS). Once the pumps were restarted, Pump P26 VFD started smoking and burned up

4. Stockton East Water District Maintenance Update

Maintenance Manager Higaes provided the Board with an update of the District's maintenance and construction projects; completion of Switch Board A ATS installation, completion of the Peters Pipeline inspection, construction of the Delucchi Low Water Crossing and Dam, replacement of the Old Calaveras Headworks gates, and installation of the High Service Pump Station (HSPS) HVAC. The HSPS old air conditioners will be moved off the roof so the roofer can install a new roof. Also, repair at Duck Creek Dam with the installation of a rebar cage and concrete. Two leaks were identified at the Machado property along the Bellota Pipeline and mobilization will start soon for those repairs.

G. DIRECTOR REPORTS

H. COMMUNICATIONS

Manager Hopkins presented the Board with a handout of the letter to Assembly Member Villapudua in which the District opposes Assembly Bill 2079 unless amended.

I. AGENDA PLANNING/UPCOMING EVENTS

1. Central San Joaquin Water Conservation District & Stockton East Water District Committee Meeting, 2:30 p.m., 05/01/24
2. San Joaquin Council of Government – One Voice in Washington, DC, 05/06/24 – 05/09/24
3. ACWA Spring Conference, 05/07/24 - 05/09/24
4. Stockton Area Water Suppliers (SAWS) Meeting, 1:00 p.m., 05/10/24
5. San Joaquin County and Delta Water Quality Coalition Steering Committee Meeting, 9:00 a.m., 05/13/24

J. REPORT OF THE COUNSEL

1. CONFERENCE WITH LEGAL COUNSEL – EXISTING LITIGATION
(Paragraph (1) of subdivision (d) of Gov. Code § 54956.9)
Stockton East Water District vs State Water Resources Control Board San Joaquin County Superior Court Case No. STK-CV-UWM-2019-472
2. CONFERENCE WITH LEGAL COUNSEL – ANTICIPATED LITIGATION Potential exposure to litigation – Government Code Section 54956.9 – one case

President Atkins adjourned the meeting to closed session at 2:04 p.m. The regular meeting reconvened at 2:24 p.m., with no reportable action.

K. ADJOURNMENT

President Atkins adjourned the meeting at 2:25 p.m.

Respectfully submitted,

Justin M. Hopkins
Secretary of the Board

AGREEMENT FOR OUT-OF-DISTRICT NON-POTABLE WATER SERVICE

This Agreement for Non-Exclusive Non-Potable Water Service is made this _____ day of May, 2024 by and between the V-V Frams at Foxridge (LANDOWNER) and Stockton East Water District, organized and existing under and by virtue of Enabling Legislation of the California State Legislature (DISTRICT).

RECITALS

WHEREAS, the LANDOWNER is the owner of that real property located at 19441 Milton Road and identified as Assessor Parcel No. 001-018-007-000 (Stanislaus County) ("Property"), which Property is outside of the boundaries of DISTRICT; and

WHEREAS, LANDOWNER shall request, on an annual basis, non-potable agricultural water service (water) from DISTRICT for the Property; and

WHEREAS, DISTRICT, on an annual basis, will determine(s) any availability of surplus water that may be available for use by the Property; and

WHEREAS, DISTRICT and LANDOWNER intend by this agreement to confirm the terms and conditions under which water may be provided to the Property.

NOW THEREFORE, the parties agree as follows:

AGREEMENT

1. Water. So long as surplus water remains available to DISTRICT, DISTRICT will provide water for irrigation purpose to the Property, upon the same terms and conditions that it provides irrigation water to properties within the district boundaries, subject to any additional rules, regulations and charges that DISTRICT may adopt specifically for out-of-district properties.

2. Rules and Regulations. Water from DISTRICT is subject to DISTRICT rules and regulations, as adopted and modified from time to time, including all applicable charges, which may become due and payable regardless of whether or not water is used on the Property. LANDOWNER acknowledges that these rules and regulations include specific restrictions prohibiting land from taking water from the DISTRICT until the LANDOWNER has complied with the requirements of the Irrigated Lands Ag Waiver Program specific to the Property.

3. Water Use Efficiency. LANDOWNER shall demonstrate its overall irrigation efficiency on the Property and be able to achieve efficiency goals established by the District from time to time. The ability to achieve these efficiency goals will be evaluated by the District. The burden shall be on the Applicant(s) to prove that irrigation efficiency goals are maintained.

4. Rates. The Annual Charge for the receipt of water shall include: (1) an administration fee for the processing of this out-of-district account, and (2) payment of the water charges set annually by the DISTRICT Board of Directors prior to the start of the irrigation season. DISTRICT shall establish the estimated water use for the irrigation season prior to commencement of the irrigation season, and, as a condition of water service pursuant to this Agreement, Applicant shall deposit with DISTRICT fifty percent (50%) of the estimated water charges for the year prior to the commencement of water service pursuant to this Agreement. The remaining amounts owed by LANDOWNER shall be paid to the DISTRICT within thirty days (30) of billing.

5. Installation and Operation of Water Transportation Facilities. LANDOWNER agrees to install, operate and maintain the facilities necessary to transport said water from the DISTRICT water supply to the Property at LANDOWNER's sole cost and expense. The specific type, location and design of the facilities shall be approved in writing by DISTRICT prior to any construction, and all releases of water by DISTRICT shall be made by and through those transportation facilities. Following their installation, said facilities shall be operated and maintained by LANDOWNER. LANDOWNER shall, at all times, protect DISTRICT's canal or canals, ditch or ditches, waterway or waterways and the banks from destruction, damage or erosion resulting from the installation and operation of said improvements, and any and all such destruction, damage or erosion shall be repaired promptly and to the reasonable satisfaction of DISTRICT, at the expense of LANDOWNER. Upon termination of this Agreement, LANDOWNER agrees to pay all costs incurred with retiring any facilities that are no longer needed for water deliveries to the Applicant(s) as determined by the District.

6. Access Easement. LANDOWNER agrees to provide direct ingress and egress to the District's agents, vehicles and equipment during the term of this agreement.

7. Quality or Fitness of Water. DISTRICT makes no warranty or representations as to the quality or fitness for use of the water sold and provided to LANDOWNER pursuant to this Agreement. LANDOWNER shall be responsible for all necessary measures at its own expense for any testing, treatment, and other steps required for water sold pursuant to this Agreement.

8. Availability & Reduction in Water. The District makes no representation, guarantee or warranty to Applicant regarding the availability of surplus irrigation water or the quantity, quality, or delivery times of said water. Water delivered to LANDOWNER under this Agreement may be reduced by DISTRICT due to it becoming unavailable as determined by the DISTRICT, drought, failure of facilities, intervening acts, or any other actions beyond the control of DISTRICT.

9. No Assignment. The permission granted by this Agreement is personal and unassignable, and such permission constitutes a license only, irrevocable in accordance with the terms of this Agreement, and for the time period specified herein. This Agreement does not grant or create an easement, or does it convey or transfer to LANDOWNER any right, title or interest in or to any property of DISTRICT. LANDOWNER shall not assign this Agreement or attempt to assign the license created hereby and any such assignment or attempted assignment shall be void. Whenever this Agreement requires an act to be performed by LANDOWNER, such activity may be performed by LANDOWNER, its employees, agents, or persons or entities operating under a contract with LANDOWNER; provided that no contract or subcontract shall relieve LANDOWNER of any of its liabilities or obligations under this Agreement, and LANDOWNER agrees that it is fully responsible to DISTRICT for the acts and omissions of LANDOWNER's employees, agents, contractors, and subcontractors, and of persons either directly or indirectly employed by them in the performance of the activities.

10. Indemnification. This Agreement is made on the express condition that DISTRICT shall be free from all liability and claims for damages by reason of any injury to or death of any person, or persons, or damage to property of any kind whatsoever, arising out of or in any manner connected with this Agreement, DISTRICT's provision of water pursuant to this agreement, and/or with LANDOWNER's acts or omissions related to this Agreement. In this regard, LANDOWNER hereby agrees to and shall indemnify and hold harmless DISTRICT from and against any and all claims, damages, loss, liability and expenses, including court costs and attorneys' fees, arising out of or on account of injury to or death of any person or loss of or damage to any property as hereinabove mentioned.

11. Payment of District Expenses. LANDOWNER shall reimburse DISTRICT for all reasonable and direct costs incurred by it for legal, engineering, inspection, and other services in connection with the preparation of this Agreement, and other similar costs. The parties acknowledge that LANDOWNER has deposited Five-hundred Dollars (\$500.00) with DISTRICT toward this purpose.

12. Notice. All notices, requests, demands, and other communications which either party may require or desire to serve on the other under this Agreement shall be in writing and shall be served (as an alternative to personal service) by registered or certified mail, with postage thereon fully prepaid, and addressed to the party so to be served as follows:

DISTRICT:
Stockton East Water District
Post Office Box 5157
Stockton, CA 95205

LANDOWNER:
V-V Farms at Foxridge LP
P.O. Box 720
Ripon, CA 95366

13. Amendments. This Agreement supersedes all prior negotiations of the parties hereto and contains the entire Agreement of such parties on the matters covered hereby. This Agreement may not be modified orally, or in any other manner, other than by an Agreement in writing signed by all of the parties hereto.

14. Permits and Government Approvals. LANDOWNER shall obtain all necessary County & Regulatory permits and governmental approvals required for their performance under this Agreement.

15. Term. This Agreement shall terminate upon 30-day notice of either the DISTRICT or the LANDOWNER.

16. Attorney's Fees. In the event of any controversy, claim, or dispute, relating to this Agreement or the breach thereof, the prevailing party shall be entitled to recover from the losing party reasonable expenses, attorney's fees and costs.

17. Counterparts. The parties may execute this Agreement in counterparts, which shall, in the aggregate, be signed by both parties; each counterpart shall be deemed an original instrument as against any party who has signed it. In the event of any disparity between the counterparts produced, the recorded counterpart shall be controlling.

Re: Update to Rule 109 - Water Rights Claims

Background

Stockton East Water District (District) commissioned a Water Rights study (the Study) for the Calaveras River in 1969, which evaluated landowners' riparian, appropriative, prescriptive, and use water rights. The Study also identifies the parcels attached to the various water rights and recommends discounts the parcels should receive based on diversions occurring prior to the District's water supply. On February 18, 1969, the District Board of Directors (Board) adopted Resolution 68-69-19 to accept the Study.

On June 20, 1972, the District Board adopted Rule 109 – Water Rights Claims (Rule 109). Rule 109 expands the discounts of the Study based on additional evidence presented to the Board after adoption of the Study. Rule 109 identifies the sections of the Calaveras River east of Bellota to receive additional discount in the amounts of 35%, 40%, and 45%, with the lower discount applied immediately upstream of Bellota and the higher discount applied immediately downstream of the San Joaquin County boundary. Rule 109 further defines that riparian lands downstream of Bellota will receive 30% discount, use lands will receive 16% discount, and appropriative lands will receive the discount amount identified by the Study.

In May 2023 District staff conducted an audit of the discounts applied to customers based on our analysis of the Study and Rule 109. Several discrepancies were identified relating to the historical application of Rule 109 discounts (entitlements), including:

- Riparian entitlements incorrectly applied.
- Use entitlements incorrectly applied.
- Entitlements applied to properties not within the Study and non-riparian.

Summary

Staff met with the Agricultural Operations Committee several times between January and April 2024 to discuss Rule 109 entitlement discrepancies and receive direction for updating the rule. Through an iterative updating process, Rule 109 was modified to reflect the entitlement methodology historically applied by staff. The modifications include:

- Allow non-riparian parcels to receive a riparian entitlement if the non-riparian parcels are contiguous and under the same ownership as the riparian parcel.
- Allow any parcel bordering Mormon Slough or Calaveras River east of Bellota to receive the riparian entitlement, even if the parcel was not included in the Study.
- Allow all parcels diverting surface water, but do not border Mormon Slough or Calaveras River east of Bellota, to receive any current entitlement.

The updates to Rule 109 also include a sunset strategy for eliminating discounts applied to lands that have no appropriative water right and do not meet the State Water Resources Control Board criteria to receive a riparian water right. Discounts to said lands

will be removed if the land uses groundwater for three consecutive years, when surface water is available.

Financial Impact

The updates to Rule 109 will not result in any immediate fiscal impact but may increase future District revenues from the sunset of existing entitlements. Independent of the updates, 16 customer accounts require a correction to the riparian entitlement applied, which is estimated to decrease surface water revenues by \$347 annually. For reference, surface water revenues are approximately \$730,000 annually.

Next Steps

Pending any Board feedback, staff will present updated Rule 109 at the May 28, 2024, regular Board meeting for public hearing and consideration of adoption.

RULE NO. 109

ADOPTED June 20, 1972

REVISED May 28, 2024

ESTABLISHING A POLICY FOR WATER RIGHTS CLAIMS

WHEREAS, the Act governing Stockton East Water district (“Stockton East”) authorizes the Board of Directors (“Board”) to make such rules and regulations as it deems necessary and proper for carrying out the provisions of the Act; and

WHEREAS, the Calaveras River diverges into the Calaveras River and Mormon Slough east of Bellota, and for interpretation of this Rule all references to “Calaveras River” shall mean that part of the Calaveras River east of Bellota and west of the San Joaquin-Stanislaus County line; and

WHEREAS, various diverters of surface water from the Calaveras River and its distributaries claim that a portion of the water they divert is diverted under a claim of right other than that held by Stockton East; and

WHEREAS, the Board recognizes that in some instances such claims may have validity when made by surface water diverters from the Calaveras River and from the Mormon Slough to the beginning of the Stockton Diverting Canal; and

WHEREAS, in 1969, Murray, Burns & Kienlen prepared a study of water uses and water rights on the Calaveras River (“Water Rights Study”); and

WHEREAS, the Water Rights Study set forth for each surface diverter in 1969 a percentage of that diverter's water demand that was considered to be taken under the diverter's claim of right (“Allowance”), concluding that:

- riparian lands are entitled to 30% of the surface water used on them under a claim of right,
- “Use” (as defined on page 14 of the Water Rights Study) lands are entitled to 16% of the surface water used on them under a claim of right and
- appropriators are entitled to the percentage of water used on them as set out for each individual appropriator on page 31 of the Water Rights Study;

WHEREAS, subsequent to the completion and adoption of the Water Rights Study, the Board received additional evidence that in that part of the Calaveras River the riparian entitlement may be somewhat greater than set forth in the Water Rights Study, and that accordingly some landowners in that reach may have a claim to additional rights; and

WHEREAS, based on that information, the Board concluded that the Allowance of some landowners on the Calaveras River were greater than that contained in the Water Rights Study, and modified the Allowance provided to such landowners under the Water Rights Study.

NOW, THEREFORE, THE BOARD OF DIRECTORS OF THE STOCKTON-EAST WATER DISTRICT HEREBY ENACTS AND ESTABLISHES THE FOLLOWING RULE:

1. All assessments and charges levied for stream-delivered water subsequent to January 1, 1972 shall contain Allowances for independent water rights of each surface water diverter from the Calaveras River that have been recognized by Stockton East as follows:
 - a. The credit entitlement of riparian diverters between the east line of the Escalon-Bellota Road Bridge and the west line of Section 4, Township 2 North, Range 9 East, M.D.B.&M. is 35%.
 - b. The credit entitlement of riparian diverters between the west line of Section 4, Township 2 North, Range 9 East, M.D.B.&M., and the west line of section 35, Township 3 North, Range 9 East, M.D.B. & M. is 40%.
 - c. The credit entitlement of riparian diverters between the west line of Section 35, Township 3 North, Range 9 East, M.D.B.&M. to the San Joaquin-Stanislaus County line is 45%.
 - d. The credit entitlement of a diverter in the areas described in subparagraphs 1 (a), (b), and (c), may be increased by resolution of the Board of Directors on a finding based on reasonable evidence in the judgment of the Board of Directors that such diverter is entitled to additional rights, whether prescriptive, riparian, appropriative, or Use, not taken into account in the Water Rights Study.
2. Effective May 28, 2024, all existing Allowances shall remain in effect, but, except as provided in Section 3, and subject to Section 6, no further credit entitlements will be granted, recalculated or modified.
- ~~2.3.~~ Because the Allowances assigned to riparian lands in the Water Rights Study, Table 7, are based upon water use at the time of the Water Rights Study, Allowances for Riparian Parcels (defined below) may be altered by Stockton East upon sufficient proof. The General Manager of Stockton East is authorized and directed to recalculate the Allowance due to each Riparian Parcel and to calculate the Allowance due to Riparian Parcels not covered by the Water Rights Study, which such calculations become necessary, in the opinion of the General Manager or when directed -to do so by this Board. In the event of such a calculation the General Manager shall consider the ratios established by the adjustments made in the Allowances granted to Riparian Parcels in the three areas above Bellota. In addition:
 - a. All parcels that have a riparian right to natural flows in the river, stream, or creek will retain a riparian Allowance in perpetuity or until such time changes in state

law redefine the definition of riparian. The only parcels eligible to receive the riparian Allowances under this Rule are the smallest legal parcel that share a property boundary with a river, stream, or creek (“Riparian Parcel”), independent of prior inclusion within the Water Rights Study.

- b. Any parcel contiguous to a Riparian Parcel that does not itself share a property boundary with a river, stream, or creek, is not eligible to receive a riparian Allowance, even if under the same ownership. Landowners may appeal a parcel’s denial of a riparian allowance if acceptable documentation is provided identifying a riparian reservation recorded on the parcel deed as a result of a parcel subdivision.
 - c. Parcels identified within the Water Rights Study as owning an appropriative water right will continue to receive the identified Allowance until such time the appropriative water right is surrendered by the owner or otherwise invalidated by changes in state law.
- 3.4. The District reserves the right to modify or abolish any Allowance granted to a diverter pursuant to this Rule, as the Rule is intended to and is granted solely for the purpose of levying a charge for surface water use and is not a determination binding either upon the District or the diverter for any other purpose.
- 4.5. Any landowner who has an Allowance recognized by Stockton East in writing or as set forth in this Rule may take water after October 30th and prior to the following April 1st of any consecutive years without payment and without having such taking applied in satisfaction of such a landowner’s Allowance recognized by Stockton East, provided that any such landowner shall provide to Stockton East written documentation sufficient (in the opinion of the General Manager) to substantiate the actual time of water use.
6. All parcels receiving a non-riparian Allowance (i.e., for Use lands) and/or non-riparian parcels receiving a riparian Allowance as of May 28, 2024, are required to continue using surface water to retain the Allowance. The use of groundwater for three (3) consecutive years, when surface water supplies are available, will constitute a failure to continue using surface water. If surface water is unavailable during the consecutive years of groundwater use, the corresponding number of years will be added to the consecutive years of groundwater use requirement. For example, should surface water be unavailable for two (2) years, groundwater use must occur for five (5) consecutive years to constitute a failure to continue using surface water.
- 5.7. This rule succeeds former Rules 10, 15, 21, 23, and 26 of Stockton East, and any question or dispute between an owner and Stockton East over charges or assessments made prior to the effective date of this Rule shall be governed by the appropriate former Rule to the extent that it would have applied prior to the adoption of this Rule.

Memorandum

To: Board of Directors
From: Justin M. Hopkins – General Manager
Juan Vega – Assistant General Manager
Darrel Evensen – District Engineer
Manuel Verduzco – Senior Engineer
Date: May 14, 2024
Re: Consideration of Approving the Purchase of Watkins Low Water Crossing Project Culverts

Background

The George Watkins Low Water Crossing Replacement (George Watkins Crossing) is part of the Calaveras Fish Passage Improvements for Flashboard Dam and Low Water Crossing Project, an effort funded by the Department of Water Resources San Joaquin Fish Population Enhancement Program whose goal is to enhance native fish populations, and reduce their vulnerability to water diversions, predation, and other impacts in the lower San Joaquin River watershed. The George Watkins Crossing is located on the Mormon Slough, downstream of the Bellota Weir. The proposed design will remove the existing road crossing barrier and replace it with a set of concrete box culverts. **Figure 1** shows the existing crossing.

Figure 1. George Watkins existing crossing, looking upstream.

Summary

The concrete road prism will be replaced with a set of custom precast Type 2 precast concrete culverts, with ends skewed at 45 degrees so that the culvert openings match the alignment of the channel. The new crossing will comprise of 10 culvert sections (two rows of 5), 7 feet wide, 20 feet span, and 8 feet tall. The new culverts will maintain the existing crossing’s 14-foot road width.

Staff requested quotes from three precast manufacturers. Jensen Precast and Precon Products quotes were received. A summary of the quotes is shown in **Table 1**.

Rank	Manufacturer	Quote (with shipping & tax)
1	Jensen Precast	\$310,492.43
2	Precon Products	\$345,371.58

Table 1. Box Culvert Quotes

The third manufacturer, Rinker Materials, cannot manufacture a box culvert with a 20-foot span or a 45-degree skew.

Financial Impact

The Board of Directors (Board) approved Fiscal Year 2024-2025 budget for the George Watkins Crossing Project is \$900,000. In addition, the George Watkins Crossings received multiple grants totaling \$600,000. The Jensen Precast quote is the lowest at \$310,492.43, including shipping and tax. The remaining budget amount should be sufficient to construct the project this fiscal year. Lead time for the box culverts is approximately three months.

RECOMMENDATIONS

Staff recommends the Board authorize the General Manager approve the purchase of concrete box culverts from Jensen Precast in the amount of \$310,492.43, plus a 10% contingency of \$31,049.24, for a total of \$341,541.68, and make all other necessary approvals.

Memorandum

To: Board of Directors
From: Justin M. Hopkins, General Manager
Date: May 14, 2024
Re: Discussion of Potential Memorial for Lorelee McGaughey

Background

Stockton East Water District (District) staff have received a few inquiries about dedicating a memorial to the District's late Director, Lorelee McGaughey. Similar dedications have been made for other prior directors, such as Dr. Joe Waidhofer, Al Bonner, and Paul Polk.

Summary

Current memorial suggestions include dedication of a park bench or street name. The park bench would be located behind the Administration building and within the pergola area. Park bench costs range between \$300 for a small concrete bench to \$1,500 for an eight-foot steel and faux wood plank bench.

Few campus roadways remain unnamed, but the District's recent use of the north site shop building has identified the need for a roadway name to better facilitate herbicide deliveries. Roadway name sign costs range between \$30 and \$80, depending on vendor, material, and finish. If a new roadway name sign is purchased for the memorial, staff recommend replacing all roadway name signs on campus; most signs need replacement and the signs should be uniform. The estimated cost to replace existing roadway name signs and install a new sign is approximately \$300, plus an additional \$200 in materials for a new roadway signpost.

Financial Impact

Funding for the memorial is available within the Fiscal Year 2024-2025 budget.

Next Steps

Staff is seeking Board of Director feedback and direction.

**GENERAL
MANAGER
LEADERSHIP
SUMMIT**

 *A leadership conference for general managers
and other management staff of special districts*

June 23–25, 2024 
JW Marriott Anaheim Resort

The General Manager Leadership Summit provides the best networking and professional development opportunities for special district general managers and other management staff from districts of all types and sizes throughout California.

Come together with others facing the same challenges and opportunities, learn from our expert instructors, and return to your district refreshed and reenergized.

Consider sending an emerging leader from your district to this conference also – it could be the first step in preparing our next generation of special district general managers.

**OTHERS WHO WOULD BENEFIT
FROM ATTENDING:**

- DISTRICT ADMINISTRATORS
- DEPARTMENT MANAGERS
- OPERATIONS MANAGERS
- OFFICE MANAGERS
- SUPERVISORS
- FINANCE OFFICERS
- BUSINESS MANAGERS
- LEGAL COUNSEL
- OTHER DISTRICT MANAGEMENT STAFF

SDRMA Credit Incentive Points

Special District Risk Management Authority (SDRMA) is committed to establishing a strategic partnership with our members to provide maximum protection, help control losses, and positively impact the overall cost of property/liability and workers' compensation coverage through the Credit Incentive Program. Credit incentive points can be earned based on an agency's attendance at the General Manager Leadership Summit.

The General Manager Leadership Summit qualifies for 25 points of continuing education toward the Special District Leadership Foundation's Certified Special District Manager program. Learn more about the requirements for taking the CSDM examination on page 9.

SJCOG One Voice® Itinerary
May 5-9
Draft as of January 9, 2024

Any meetings listed on this schedule are subject to change, this is not a final list of meetings expected to occur.

Monday, May 6

7:00 – 9:30 a.m. Buffet Breakfast/Group Briefing with CJ Lake team
Hyatt Regency Washington on Capitol Hill Hotel, Room TBD

6:00 p.m. San Joaquin RTD/Regional Rail Commission Hosted Dinner
(All Invited) – Additional details with RSVP instructions to follow.

Tuesday, May 7

7:00 – 9:30 a.m. Buffet Breakfast/Day Briefing
Hyatt Regency Washington on Capitol Hill, Room TBD

6:30 p.m. Port of Stockton Hosted Dinner
(All invited) – RSVP information and additional details to follow.
*Please Note: **Dress Code – Jackets are required, tie optional.*

Wednesday, May 8

7:30 – 8:30 a.m. Buffet Breakfast/Day Briefing
Hyatt Regency Washington on Capitol Hill, Room TBD

5:00 – 6:30 p.m. One Voice® Reception with Congressional Members (and staff)
– Hyatt Regency Washington on Capitol Hill
Hotel, Room TBD

6:45 p.m. Washington Nationals Ball Game – (All invited) Additional
details and RSVP information to follow.

Thursday, May 9

Open for non-One Voice® meetings/travel

Bay-Delta Water Tour

May 15-17, 2024

FIELD TRIP

BAY-DELTA TOUR ITINERARY MAY 15-17, 2024

Follow us on

@WaterEdFdn

Foundation Team:

Bus 1

Nick Gray
Programs Director
530-433-4242

Kayla Sergent
Operations Manager
209-743-3358

Bus 2

Jenn Bowles
Executive Director
916-812-2643

Patrick Dunlap
Deputy Executive Director
916-233-5483

Resource Speakers:

Josh Israel
Chief, Science Division
Bureau of Reclamation, Bay-Delta Office

Mike Moran
Regional Interpretive & Recreation
Services Manager
East Bay Regional Park District

Jacob McQuirk (Wed)
Principal Engineer, Water Resources
CA Department of Water Resources

Bill McLaughlin (Thu)
Supervising Engineer, Water Resources
CA Department of Water Resources

Rosemary Hartman (Fri)
Environmental Program Manager
CA Department of Water Resources

TOUR MATERIALS

DAY 1: WEDNESDAY, MAY 15

7:30 a.m. CHECK-IN
Water Education Foundation, Sacramento

8:00 a.m. DEPART for Silt Wine Company

Jenn Bowles & Nick Gray

- Welcome & introduction to the tour

8:30 a.m. ARRIVE at Silt Wine Company
Opening Presentations of the Bay-Delta Tour

Mike Moran

- Unique geography & hydrology of the Sacramento-San Joaquin Delta
- Natural history of the Delta & its role in species migration

Jessica Pearson

Executive Officer, Delta Stewardship Council

- Overview of the Delta & its importance to California
- Today's Delta issues, its numerous players & plans & who is doing what
- Things to think about during the tour

10:00 a.m. DEPART for Jean Harvie Community Center
View of the Delta Cross Channel

David Ogilvie

Vineyard Manager, Wilson Vineyards

Director of Production, Ogilvie Merwin Vintners

- North Delta farming: past, present & future
- Water sources & regulations
- Voluntary water reductions

10:30 a.m. ARRIVE at Jean Harvie Community Center

Campbell Ingram

Executive Officer, Sacramento-San Joaquin Delta Conservancy

- Overview of the Delta Conservancy mission & history
- Conservancy's role in ecosystem restoration & economic development

Resource Speakers

- Water conveyance through & around the Delta
- The Delta Cross Channel & Georgianna Slough
- Salmon out migration impact on operations

11:30 a.m. **DEPART** for Delta Farmer's Market

12:00 p.m. **ARRIVE** for **LUNCH** at Delta Farmer's Market

Jay Ziegler

Delta Watermaster, State Water Resources Control Board

- Water rights & allocations in the Delta: a brief primer
- Role of the Delta Watermaster in administering water rights
- Proposals to implement the Bay-Delta Plan through Voluntary Agreements

1:00 p.m. **DEPART** for Big Break Regional Shoreline

Resource Speakers

- Salinity & tides where the Delta meets the Bay & Delta outflow requirements
- Drought barriers & Franks Tract Futures

1:30 p.m. **ARRIVE** at Big Break Regional Shoreline

Mike Moran

- Accessible Delta shoreline provides connection to larger Delta issues
- Open water, tidal sloughs, freshwater marsh & riparian areas support wildlife
- Delta Discovery Experience- a 1,200 ft² scale map of the Delta

Randall Neudeck

Bay-Delta Imported Water Supply Program Manager

Russ Ryan

Delta Islands Manager

Metropolitan Water District of Southern California

- The role of the Delta in Southern California water supplies
- Southern California perspectives on the Delta Conveyance Project
- Metropolitan's Delta projects, including islands purchased

3:30 p.m. **DEPART** for Twitchell Island

3:45 p.m. **ARRIVE** at Twitchell Island

David Julian

Senior Engineer, California Department of Water Resources

Tyler Anthony

Senior Environmental Scientist, California Department of Water Resources

- Delta levee special flood control projects
- Subsidence & mitigation
- Wetland restoration programs
- Greenhouse gas sequestration projects

5:15 p.m. DEPART for University Plaza Waterfront Hotel

Resource Speakers

- Delta smelt/fish habitat & wetlands
- Historical effects of island building
- Seismic risk
- Delta Conveyance Project & Peripheral Canal

6:00 p.m. ARRIVE at University Plaza Waterfront Hotel
Stockton, CA

6:15 p.m. GATHER for wine reception in the Waterfront Ballroom

6:30 p.m. DINNER in the Waterfront Ballroom

Jeanne M. Zolezzi

Partner, Herum\Crabtree\Suntag

- Stockton Area Water Suppliers: opportunities & challenges

Post-Dinner: 2024 Water Leaders cohort meets with Executive Director Jenn Bowles

DAY 2: THURSDAY, MAY 16

Load luggage on bus before breakfast & keep room key until departure.

7:00 a.m. BREAKFAST in the Waterfront Ballroom

Ivan Senock

Deputy Director, Restore the Delta

- The Delta as part of California's natural heritage & deserving of restoration

8:00 a.m. DEPART for Central Valley Project / State Water Project South Delta Facilities

TBD

South Delta Farmer

- South Delta agricultural concerns
- Crop management in a saline-rich environment

9:00 a.m. **ARRIVE** at Central Valley Project / State Water Project South Delta Facilities
Closed-toe shoes & government-issued ID required

Tour of Jones Pumping Plant / Delta-Mendota Canal

Seth Harris

Water Operations Superintendent

Chauncy Lee

Operations & Maintenance Manager

San Luis & Delta-Mendota Water Authority

- Operations of the Jones Pumping plant & its role in California water systems

Tour of Skinner Fish Facility / Fish Conservation & Culture Lab

Trent Schaffer

Civil Maintenance Assistant Branch Manager, California Department of Water Resources

Tien-Chieh Hung

Director

Luke Ellison

Manager

UC Davis Fish Conservation & Culture Lab

- Fish diversion & collection strategies in transporting water
- Aquaculture techniques to create research stock of Delta smelt

12:00 p.m. **DEPART** for Los Vaqueros Reservoir

Resource Speakers

- Long-term State Water Project / Central Valley Project Coordinated Operations
- Endangered Species Act compliance & engineering for salmon protection
- California Aqueduct & Delta-Mendota Canal Intertie
- Delta export pumping & water quality/level protection
- Temporary rock barriers vs. permanent operable gates

12:30 p.m. **ARRIVE** for **LUNCH** at Los Vaqueros Reservoir

Rachel Murphy

General Manager, Contra Costa Water District

- Overview of Contra Costa Water District & current water operations

Jennifer Allen

Director of Public Affairs, Contra Costa Water District

Maggie Dutton

Senior Engineer, Contra Costa Water District

Cary Richardson

Watershed Resources Superintendent, Contra Costa Water District

- Los Vaqueros Watershed Management
- Los Vaqueros Reservoir Expansion Phase 2

2:15 p.m. DEPART for Antioch Brackish Water Desalination Project

Resource Speakers

- Pressures on regional habitat
- San Joaquin River Restoration, predation & low through-Delta survival
- Delta housing developments & their flood protection implications

2:45 p.m. ARRIVE at Antioch Brackish Water Desalination Project

Marcus Woodland

Water Treatment Plant Superintendent, City of Antioch

- Long-term strategy to improve water supply reliability & operational flexibility

4:15 p.m. DEPART for Embassy Suites

4:45 p.m. ARRIVE at Embassy Suites
Walnut Creek, CA

5:30 p.m. DINNER in the Contra Costa Ballroom

Jenn Bowles

- 2024 William R. Gianelli Water Leaders cohort introductions
- Mentors & policy project topic

Michelle Workman

Manager of Fisheries & Wildlife, East Bay Municipal Utility District

- Managing salmon at the south end of the range: challenges for the Mokelumne River

Steve Ritchie

Assistant General Manager, Water Enterprise, San Francisco Public Utilities Commission

- Overview of SFPUC System
- Effects of Phase I Bay-Delta Plan on SFPUC
- Tuolumne River Voluntary Agreement

DAY 3: FRIDAY, MAY 17

Load luggage on bus before breakfast & keep room key until departure.

7:00 a.m. BREAKFAST in the Contra Costa Ballroom

Jenn Bowles & Nick Gray

- About the Water Education Foundation

Scott Artis

Executive Director, Golden State Salmon Association

- Current state of California fisheries
- How the health of the Delta impacts ocean fishing

8:00 a.m. DEPART for Fisherman’s Wharf

9:00 a.m. ARRIVE at Fisherman’s Wharf
Buses will not be available for the next 3 hours, so bring anything you’ll need.

Scott Artis

- Tour of Pier 45 fish suppliers

10:00 a.m. DEPART for Aquarium of the Bay, Pier 39

10:15 a.m. ARRIVE at Aquarium of the Bay, Pier 39

- Self-guided tour of native San Francisco Bay animals in simulated habitat

11:15 a.m. GATHER at Pier 41 & **BOARD** Ferry

- Foundation team will provide ferry tickets

11:30 a.m. DEPART for Sausalito

- Ferry ride across San Francisco Bay with view of the Golden Gate

12:00 p.m. ARRIVE in Sausalito / **DEPART** for Bay Model Visitor Center

12:15 p.m. ARRIVE for **LUNCH** at Bay Model Visitor Center

Linda Holm

Park Ranger, U.S. Army Corps of Engineers, Bay-Delta Model

- Introduction to the history of the Bay-Delta Model
- Self-guided tour of one-of-a-kind hydraulic model of the San Francisco Bay & Sacramento-San Joaquin River Delta System

1:15 p.m. **GATHER** in Bay Model Auditorium

Jon Rosenfield

Senior Scientist, San Francisco Baykeeper

- Protecting water quality & environmental health in the San Francisco Bay

2:00 p.m. **DEPART** for Rush Ranch

Resource Speakers

- Advancements in hydrodynamic modeling
- Suisun Marsh, Delta smelt & low salinity zone
- Montezuma Slough Salinity Control Gate
- Tidal wetlands value & restoration

3:30 p.m. **ARRIVE** at Rush Ranch

Steven Chappell

Executive Director, Suisun Resource Conservation District

Kelly Santos

Manager of Land & People Connections, Solano Land Trust

Charlotte Biggs

Program Manager - EcoRestore, California Department of Water Resources

- Brackish water marsh ecology, salinity issues, endangered species, waterfowl nesting
- Comparison of tidal wetlands vs. seasonally managed marshes
- Suisun Marsh Implementation Plan
- California EcoRestore & the Yolo Bypass Wildlife Area

4:45 p.m. **DEPART** for Sacramento

Resource Speakers

- Notable features in the area: Yolo Bypass, weirs, etc.
- Flood bypasses & nature preserves in the Delta

6:30 p.m. **ARRIVE** at Water Education Foundation
Sacramento, CA
