The Ordinance was modified four times since original adoption to increase the Board compensation amount. The last modification was adopted on March 31, 1998, establishing the current Board compensation rate of \$133.32 per day. No other language of the Ordinance has been updated and the Board compensation rate has not been increased for 25 years. The Ordinance was reviewed and updated by staff and legal counsel. Section 6 has been added to reference the rate for sales of Non-Agricultural stream-delivered water of \$60 per acre-foot.

Director Watkins suggested making an edit to section 6 to specify the rate is related to the exchange agreement. Legal Counsel Zolezzi replied that the specific distinction wasn't necessary.

Director Panizza inquired if it is necessary to add section 6 to the ordinance. Legal Counsel Zolezzi replied the agreement with NSJWCD states the District is to set the rate for the Non-Agricultural stream-delivered water.

Updates to the Ethical Guidelines include; changing “Board members” to “Directors”; updating various government codes to ensure compliance; and the addition of guidelines relating to compliance with legally mandated training.

Director McGurk stated he was expecting to see a more conclusive list of committee meetings added in Section 12. Directors’ Compensation and Expense Reimbursement. Legal Counsel Zolezzi explained if the guidelines were to indicate an inclusive list of committee meetings then the guidelines would need to be revised anytime a Director attends a meeting not already listed. The guidelines as presented were intended to be more flexible and have a broader scope.

A motion was moved and seconded to the Ethical Guidelines for Stockton East Water District, as presented.

Roll Call:

Ayes: Atkins, Cortopassi, McGaughey, McGurk, Panizza, Sanguinetti, Watkins
Nays: None

ACWA MEMBER AGENCY GENERAL MANAGERS

FROM: Pamela Tobin, ACWA PRESIDENT

SUBJECT: ACWA COMMITTEE APPOINTMENT CONSIDERATIONS FOR THE 2024-'25 TERM

PLEASE RESPOND BY SEPT. 30, 2023

Thank you for your involvement with ACWA. As you know, committees are an integral part of ACWA's activities and policy development. With the end of the current committee term fast approaching, it is time again to request 2024-'25 committee nominations from ACWA members. All committees will be reconstituted following the election of new officers (ACWA's President and Vice President).

In submitting names for consideration, please do so with the understanding that committees need active, involved individuals able to expend the time and provide their expertise, if appointed. Please keep in mind that the district is responsible for all costs associated with the participation of its representatives on Committees.

The following information is available on [ACWA's website](#) or by clicking on the link below.

- [ACWA Timeline, Committee Composition, and Consideration Form](#)

If you would like to reference current committee members serving on an ACWA committee please click [here](#).

All correspondence and forms regarding committee appointments must be submitted to the ACWA office no later than Sept. 30, 2023 to be eligible for consideration. Committee appointments will be made by the incoming ACWA President in December. Please contact Region and Member Engagement Specialist,

Ana Javaid, at anaj@acwa.com or (916) 669-2442, if you have any questions concerning the committee appointment process.

We appreciate your timely attention to this matter.

Thank you,

Re: 2023 Satellite ET Project – DCSE Professional Services Agreement

Background

The Stockton East Water District (District) Board of Directors (Board) approved funding within the Fiscal Year 2023-2024 (FY 23-24) budget to perform an evapotranspiration (ET) study using satellite imagery. The board previously approved two contracts with consultant DSCE, Inc. (DSCE) to perform evapotranspiration studies for water years 2021 and 2022. The previous studies included the agricultural parcels within the District's boundaries as well as evaluation of parcels within North San Joaquin Water Conservation District and Central San Joaquin Water Conservation District. The cost of previous studies was partially offset by a \$58,000 U.S. Bureau of Reclamation (USBR) WaterSmart Grant that has been exhausted.

Summary

The District has received a proposal from DSCE to perform a 2023 water use evaluation through satellite imagery for the District's area. The evaluations will support the District's groundwater use information and crosscheck the groundwater use information developed by the Groundwater Sustainability Plan. Furthermore, if the data is shown to be accurate enough, it may be further investigated as a viable alternative to physical meters for reporting and/or billing purposes.

Financial Impact

The Board approved a budget for FY 23-24 of \$50,000 for this study. The proposal received from DCSE for water year 2023 is for \$33,360. The proposal price plus contingency fall well within the budgeted amount.

Recommendation

Staff recommends the Board authorize the General Manager to approve a Professional Services Agreement with DSCE for an amount not to exceed \$33,360, plus a 10% contingency of \$3,336 for a total amount of \$36,696, and make all other necessary approvals.

Re: CalPERS Yearly UAL Payment Options

Background:

Yearly, CalPERS performs valuations of Stockton East Water District's (District) pension plans. CalPERS provides one valuation for classic members and a separate valuation for PEPRA members. The changes prescribed in these valuations take effect every July 1st and continue through June 30th of the next year. The valuations detail the normal cost, expressed as a percentage of payroll, and the District's yearly unfunded accrued liability (UAL) portion for each plan respectively. Yearly, also, staff presents the information to the Board of Directors to advise them of the changes and receive their direction concerning which method of payment of the UAL they would prefer.

Summary:

The UAL portion of contributions may be paid in one of two ways:

1) It may be paid **monthly** at the listed rate for the Classic plan:

A) \$42,233.75 for Classic members for a yearly total of \$506,805

2) It may be paid in an **annual lump sum** at the listed amount for the Classic plan:

A) \$490,405 for Classic members

The District would save money with the prepayment option since the lump sum payment earns interest for the plan sooner than monthly installments.

Paying the UAL in a lump sum for the classic members would save **\$16,400**.

This year the PEPRA portion of the UAL is **\$0**, and as such, there is no pre-payment.

Recommendation:

Staff respectfully recommends prepaying the UAL portion of the District's Classic plan. Prepaying will save the District interest that is built into the monthly payment amount.
